

2020 HOPS Agenda

Friday, June 19, 2020		Saturday, June 20, 2020					
07:00-07:45	Breakfast	07:00-08:00 Breakfast					
07:45-08:00	Welcome						
08:00 - 9:30	<p><i>Changing Dynamics: Hospital, Insurance, Policy, and Industry Perspectives</i></p>	08:00 - 9:30 Concurrent Sessions					
		Upper Extremity	Lower Extremity	Spine	Allied Health	Business of Medicine	
		Hand: Convince Me That Your Way is the Right Way	Adult Reconstruction	Spondylolisthesis	Trauma	Patient Factors	
		<i>Scaphoid nonunions: vascularized bone graft vs screw with corticocancellous graft vs plate with pure cancellous graft.</i>	<i>Spinopelvic Considerations in THA (30)</i>	<i>Grade One Degenerative Spondylolisthesis and Stenosis: Decompression alone (15)</i>	<i>Overview of Management of Pelvic Fractures</i>	<i>Incentivizing Patients Financially for Choosing Providers Wisely</i>	
		<i>Scapholunate reconstruction: Bone-ligament-bone vs. modified Burnelli vs internal brace augmentation</i>	<i>Alignment strategies in TKA – Kinematic vs mechanical</i>	<i>Grade One Degenerative Spondylolisthesis and Stenosis: Decompression and Stabilization without Fusion (15)</i>	<i>Overview of Management of Hand Injuries</i>	<i>Out of Network: Changing Dynamics</i>	
		<i>Acute DRUJ instability: Pinning vs open TFCC repair vs arthroscopic TFCC repair</i>	<i>Posterior-stabilized or cruciate-retaining prosthesis? – Updated answers (15)</i>	<i>Grade One Degenerative Spondylolisthesis and Stenosis: Decompression Fusion (15)</i>	<i>Soft Tissue Injuries of the Foot & Ankle</i>	<i>Understanding RAF Scoring and How to Drive Appropriate Pricing and Scoring</i>	
		Panel/Q & A	Q & A	Q & A	Q & A	Q&A	
09:30-10:15	Coffee Break/Visit the Exhibitors	09:30-10:15 Coffee Break/Visit the Exhibitors					

2020 HOPS Agenda

Friday, June 19, 2020						Saturday, June 20, 2020					
10:15-11:45	Concurrent Sessions					10:15-11:45	Concurrent Sessions				
	Upper Extremity	Lower Extremity	Spine	Allied Health	Business of Medicine		Upper Extremity	Lower Extremity	Spine	Allied Health	Business of Medicine
	Hand: Convince Me That Your Way is the Right Way	Economics of Adult Reconstruction	Alignment	Pearls	Bundled Payments and The Future		Reverse Shoulder Arthroplasty (RSA)	Foot & Ankle: Sports	New Technology	Complex Patients	Population Health
	<i>PIP fracture dislocations: Ex-fix vs hemi-hamate vs volar plate arthroplasty.</i>	<i>Understanding Different Types of Arthroplasty "Robots" (30)</i>	<i>Thoraco-Lumbar Sagittal Alignment Correction: Posterior Osteotomies & Approaches (20)</i>	<i>Spine Pathology Pearls (25)</i>	<i>Do Bundled Payments Work?</i>		<i>Effect of Glensphere size on Range of Motion in RSA (15)</i>	<i>Achilles Tendon Rupture, show we fix?</i>	<i>Navigation and Robotics in Spinal Surgery: Hype or Reality? (30)</i>	<i>Surgical Pain Management Considerations for the Chronic Pain Patient (30)</i>	<i>Can It Work for a Surgical Subspecialty? (20)</i>
	<i>Fusion of Hand & Wrist: Allograft vs Autograft</i>			<i>Oncology Pearls (25)</i>	<i>Addressing Race to the Bottom Concerns: How to Make Them Sustainable</i>		<i>Effect of Humeral Inclination on Outcomes in RSA (15)</i>	<i>Lateral Ankle Instability, how should we fix?</i>			<i>Tools and Data Needed for Success in True Value-Based Care and Population Management (20)</i>
	<i>Thumb CMC Arthroplasty: LRTI vs. Distraction Arthroplasty vs Arthroscopic hemitrapeziectomy.</i>	<i>Robotics in THA: Evidence and Cost Considerations</i>	<i>Thoraco-Lumbar Sagittal Alignment Correction: Anterior & Lateral Approaches (20)</i>	<i>Pearls in Common Pediatric Fractures (25)</i>	<i>Impact of Legislative Changes on Bundled Payment Population Stratification</i>		<i>Risk factors, Management, and Outcomes of Scapular fractures following RSA (15)</i>	<i>Syndesmosis and High Ankle Injuries in Athletes</i>	<i>Current Evidence on Disc Arthroplasty (30)</i>	<i>Arthroplasty Work-up of a Painful TJA (30)</i>	<i>Are Current Ways We Measure Provider Costs Fair and Accurate? (20)</i>
	<i>Carpal Tunnel Syndrome: Endoscopic CTR vs Open CTR vs ultrasound-guided percutaneous techniques.</i>	<i>Robotics in TKA: Evidence and Cost Considerations</i>			<i>Role of Endoscopic vs Tubular Based vs Open Surgery in Posterior Approaches to the Degenerative Lumbar Spine (20)</i>	<i>What is Likely to Be Coming Next from CMS ... When Bundles Bottom Out?</i>		<i>RSA Outcomes in Fracture Sequella vs Acute Fractures</i>			<i>Medial Side in Fibular Fracture: Where and What to Fix</i>
	<i>Panel/Q & A</i>	<i>Q & A</i>	<i>Q & A</i>	<i>Q & A</i>	<i>Q & A</i>		<i>Panel/Q & A</i>	<i>Q & A</i>	<i>Q & A</i>	<i>Q & A</i>	<i>Q & A</i>
11:45-12:30	Lunch / Visit the Exhibitors					11:45-12:30	Lunch / Visit the Exhibitors				
12:30-13:45	Mythbusters: Is Orthopedic Practice Supported by the Evidence?					12:30-13:45	New Technologies that may Redesign Musculoskeletal and Neurological Care				
13:45-14:00	Coffee Break					13:45-14:00	Coffee Break				

2020 HOPS Agenda

Friday, June 19, 2020						Saturday, June 20, 2020					
14:00-15:15 Concurrent Sessions						14:00-15:15 Concurrent Sessions					
Upper Extremity	Lower Extremity	Spine	Allied Health	Business of Medicine		Upper Extremity	Lower Extremity	Pain/Spine	Allied Health	Business of Medicine	
Hot Topics	Sports	Trauma	Sports	Site of Service		Hand: Convince Me That Your Way is the Right Way	Foot & Ankle: Trauma	Concussion	Important Concepts	Technology	
Diagnosis and Management of Periprosthetic Joint Infection	Graft Choice in ACL reconstruction: debate Quad v. Hamstring v. BTB	Treatment of Three Column Thoraco-Lumbar Fractures and Influence of DISH (20)	The Overhead Athlete/Shoulder Impingement: Differential Diagnosis & Management; (30)	Care Redesign to Permit Safe Arthroplasty in the ASC setting for Medicare Patients (15)		Lateral Epicondylitis: Open vs arthroscopic vs Ten-Ex	Hindfoot Fractures	Acute Concussion Assessment	Trauma Triage (30)	Wearable Sensors to Drive Decreased Utilization	
Massive Irreparable Rotator Cuff Tear: Superior Capsular Reconstruction vs Reverse Shoulder Arthroplasty	The role of Allograft in ACL reconstruction. When, why and with what? (15)	Treatment of Type II Odontoid Fractures in the Elderly and Nonop Management. Is Ignorance Bliss? (20)		Creating a Win-Win for Physicians and Payers with Site of Service Migration(15)		Olecranon Fractures: Plates vs Tension band vs IM device.	Treatment of Lisfranc Injuries	Concussion and Return-to-Learn for the Student Athlete		Apple, Google and Fitbit...Real Medical Value for Providers or Vaporware for Runners?	
Proven Modalities for Tennis Elbow and Other Tendinopathy of the Upper Extremity	Meniscal transplant: indications and does it work?	Current Concepts in Timing of Treatment in Spine Fractures with Neurology Injury	Determining Return to Work Criteria Postoperatively (30)	Facility Consideration for Spine and Arthroplasty in the ASC		Radioulnar impingement: Tenodesis vs interposition vs implant arthroplasty	Ankle fractures, and what about the Deltoid and Syndesmosis? (15)	Return-To-Activity Decisions for Sport Related Concussion	Basics of MRI Interpretation of Joints (30)	Patient Engagement Tools: Can They Work?	
Q & A	Q & A	Q & A	Q & A	Q & A		Q & A	Q & A	Q & A	Q & A	Q & A	
15:15-15:30 Coffee Break						15:15-15:30 Coffee Break					
15:30-16:30 Concurrent Sessions						15:30-16:30 Concurrent Sessions					
Upper Extremity	Lower Extremity	Spine	Allied Health	Business of Medicine		Upper Extremity	Lower Extremity	Pain/Spine	Allied Health	Business of Medicine	
UE: Trauma	Sports	Oncology	Avoid Misdiagnosis	Trends		Hand: Convince Me That Your Way is the Right Way	Ankle Arthritis & Deformity	Pain Management	Physical Therapy Focus	Technology	
Operative management of humeral shaft fracture: Intramedullary Nail vs Plate (15)	Indications & Technique for PCL reconstruction (15)	Role of New Radiation Therapies in Treatment of Metastatic Osseous Tumors of the Spine vs Surgical Intervention (30)	Rheumatology & Low Bone Mass Considerations (15)	Do Outpatient Facilities Have the Capacity (Infrastructure) to Absorb the Move to Outpatient TJA? (15)		Elbow Arthroplasty in Patients - 50 years: TEA hemiarthroplasty vs facial arthroplasty.	Ankle Arthritis, to fuse or to replace (15)	Management of Pre- and Post-operative Narcotic Dependent Patient (20)	The ACL/Return to Sport - Are you Ready?; (25)	Robotics in Orthopedic Surgery: Financial Implications (20)	
Operative Management Indications for Olecranon and/or Coracoid (15)	The Evolving Role of Anterolateral Ligament Reconstruction: What is it, What Does It Do and When Should It be Done? (15)		MRI Basics: Lumps & Bumps (30)	Legislative changes and pipeline that will accelerate risk based contracting (15)		Ulnar Neuropathy: Anterior transposition vs in-situ decompression vs medical epicondylectomy	Bunions and Hammertoes	Should Medical Marijuana be Used in Orthopedic Care?		Emerging Trends in PT for Reducing Resource Utilization, Cost, and Improving Patient Access/Outcome	Robotics in Orthopedic Surgery: Clinical Implications (20)
New Techniques & Technology in Proximal Humerus Fractures	The use of osteochondral allograft and its role in joint preservation.	Degenerative Cervical Stenosis with Kyphosis: Anterior/Posterior/Combined Approaches?(20)	Consolidation in Musculoskeletal Practices - What It is and What It Means(15)		DRUJ Arthritis: Darrach vs Suave-Kapandji vs implant arthroplasty.	PTT Dysfunction, treatment and controversies (15)	Current Concepts in Spinal Cord Stimulators	The Future of Patient Information and Access to PT treatment;			
Q & A	Q & A	Q & A	Q & A	Q & A		Panel/Q & A	Q & A	Q & A	Q & A	Q & A
