

**2021**

## **HEALTHCARE OUTCOMES PERFORMANCE SYMPOSIUM (HOPS) EVENT FACT SHEET**

**COURSE DESCRIPTION:** This exciting, in-depth program for providers, health system executives, and payors will focus on critical topics across the continuum of musculoskeletal care and healthcare business performance through a dynamic mix of didactic presentations, interactive case-based discussions, expert debates, and lively panels. The course format will provide interaction with distinguished faculty members who will share their knowledge and expertise on a wide variety of relevant topics. Various tracks will allow attendees to attend the specific clinical and business topics that most interest them.

**Five distinct tracks, which attendees can move between, will be devoted to:**

- Three specialized tracks for advanced concepts in clinical musculoskeletal topics across the continuum of care in upper extremity, lower extremity, and spine and pain
- A specialized track focused on healthcare reform strategies, population health, bundled payments, and the business of medicine
- A specialized track for musculoskeletal care and management for Allied Health Providers (PA, NP, PT)

**CLINICAL TRACK SYMPOSIUM OBJECTIVES:**

- Implement clinical practice improvements based on evidence, professional development, and strategies for cost-effective quality musculoskeletal care.
- Impact patient outcomes through adoption of innovation, technology, and best practices.
- Discuss current literature in highly controversial areas to reveal best practices and effective care.
- Interact with experts in your specific field in small groups to allow meaningful discussion about issues critical to your practice.

**BUSINESS TRACK SYMPOSIUM OBJECTIVES:**

- Determine opportunities and strategies around the outpatient ecosystem, ambulatory surgery centers, and related reimbursement and legislative changes.
- Analyze how alignment of payors, providers, health systems, and patients is possible and the winning formula.
- Discuss healthcare strategies for remaining a viable, sustainable musculoskeletal practice and describe the strategy details to manage and grow musculoskeletal businesses in a complex and changing regulatory and business environment.
- Explain how network development, payor-provider partnerships, and new technologies can drive lower cost trends and improve quality resulting in benefit for all stakeholders.
- Discuss current trends in musculoskeletal practice consolidation
